RE: Proposed Campus Expansion Project – Children’s Education Facility – Christ Church UM

Dear Dan,

Thanks to you, members of CCUM staff and the CCUM building committee for the excellent presentation of the preliminary planning report concerning the proposed construction of a Children’s Education Facility campus addition.

Following CCUM’s presentation to the members of our committee, and the discussion that followed, the Central North District Building and Church Location Committee unanimously approves and endorses this preliminary report which covers the needs and financial issues combined with building options to expand the campus with a children’s education facility.

This approval letter endorses Christ Church in support of your Building Committee’s future work to continue the development to a final plan for church approval to move forward with a campaign to raise project funds and eventually to design and construction.

Our committee also encourages Christ Church to not limit itself in this process and develop an option that can support the present financial conditions of the church with the ability for cost effective future expansion. We look forward to our next meeting with Christ Church as you progress and we are truly encouraged by this great project to expand and enhance the ministries for children education in the local community and beyond. It is exciting to see the growth projections of Christ Church’s children’s education programs including The Climbing Tree Christian Daycare Center, Christ Church Pre-School, and Children’s Ministry to bring our kids to Christ and spread God’s grace to all in everything you do. We pray for and wish you and the congregation our very best in the name of our Lord and Savior Jesus Christ.

Sincerely,

Robert C. (Bob) Kinnear, Jr.  
Chair, Central North District  
Building & Church Location Committee
